DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 1-5 and 10 are rejected under 35 U.S.C. 102(a) as being anticipated by Cavaan.

The reference teaches a method of funding a project via the internet including soliciting proposals, posting proposals, responding to the proposals. (See, entire document)

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cavaan.

Art Unit: 3624

The reference teaches a method of funding a project via the internet including soliciting proposals, posting proposals, responding to the proposals. (See, entire document) The reference fails to teach transferring money. Official notice is taken that it is well known in the art to transfer money via the internet. It would have been obvious for one skilled in the art at the time to have combined the teaching as motivated by the need to expedite the funding process.
